

Thanks to the work of restoration expert Bill Howe of Grafton, Wisconsin, music files for many early 78 rpm records are being upgraded and new ones are being added to the music page. Bill (below) generously donated his time and expertise, as he says, "to the cause." --- Thanks, Bill!

His restored files appear on the music page with an [H] following the title of songs. Feel free to contact Bill at whowe@wi.rr.com or 262-377-8591.

If you own records of potentially higher quality, *please help us improve this collection.* Write to alred@inlandchorus.com or call 262-512-3639.
